Technical Equipment: Electric Toilet

Description / Comments

The RIB Arctic Blue 29 is a versatile rigid airship (RIB) known for its elegant design, exceptional performance and durability.

Main features:

Design:

Elegant and streamlined design for high-speed performance and stability.

Made to handle challenging sea conditions with a deep V hull for better navigation on the waves.

Modular designs, often customizable for various uses such as leisure, diving or rescue.

Materials:

High quality hypalon or PVC tubes, which offer wear resistance, UV rays and extreme temperatures.

Reinforced helmet made of sea-grade aluminum or glass fiber.

Performance:

Equipped with a powerful 420 hp intra-ship motor for exceptional speed and reliability.

Designed both for speed and efficiency with an excellent fuel economy at cruise speeds.
